

Our Clients' Experience

"I am an out of state guardian for a loved one. Rebecca and Sarah provide professional and caring services and are my local eyes and ears, giving attention and access to services to improve his quality of life." ~ *Guardian*

"When my father was dying Rebecca handled his massive insurance problems allowing me to be present with him and my mother in his last days." ~ *a Daughter*

"I recommend The Aging Space to anyone who is looking for guidance and expertise in caring for their loved one." ~ *Guardian*

"It's hard to imagine the past few years had there been no Rebecca, as she was instrumental in helping us through every phase of Mom's illness." ~ *a Daughter*

"My husband's family has been using Sarah Bourque, and she has been compassionate and wonderful in helping us with my father-in-law. I have been really impressed by your agency..." ~ *a Daughter-in-Law*

Sarah Bourque
RN, MSN, CMC

Excited to be pursuing my long-held dream to provide personalized care management for people like my own parents, I founded The Aging Space in 2013. I was joined by Sarah in 2018. We are nurses and both hold Master's Degrees. Mine is in Gerontology and Sarah's is in Psychiatric Nursing. Together we have over 70 years of healthcare experience. We are nationally certified as care managers holding the CMC credential. We provide a skilled and experienced resource for our clients and families when planning for today and tomorrow. Our extensive knowledge of medical conditions and local resources, along with careful consideration of client and family wishes, allows us to develop a plan that provides peace of mind and the best quality of life possible. We feel honored to be allowed into the lives of our clients and their families and believe that working on their behalf is one of the most rewarding things we have done in our careers.

The Aging Space – *Where Caring Meets Planning*

Imagine:

- Taking your loved one out to lunch instead of to the doctor
- Having productive, goal-directed family conversations
- Being confident about the future, knowing that someone “has your back”
- Having someone who cares

Your personal plan will be developed after a comprehensive assessment is completed.

It will:

- Be unique to you
- Focus on your goals
- Work within your budget
- Include local community resources
- Have options for home modifications or moving
- Introduce you to recommended services and technology
- Include your family and current caregivers
- Have referrals to other professionals
- Include an option for ongoing visits and support
- Be organized in order of urgency and priority.

The Aging Space, Inc.™

Certified Aging Life Care Professionals® meet strict certification requirements and follow ALCA™ Standards of Practice and Pledge of Ethics

People call for assistance when life or aging become difficult because:

- Of a new diagnosis such as dementia
- Of recent widowhood or loss of support
- They are alone – an “elder orphan”
- The doctor says they can no longer live alone and they need a plan
- Their attorney says they need to have an assessment

What You Can Expect:

- A Care Manager who works for you
- An RN to interpret and translate medical information
- Advice and guidance on options and resources
- Friendly therapeutic visits
- Regular communication with all involved
- Medical appointment support
- Options for a Care Manager Assistant to help with shopping, transportation, and friendly visits.
